OFFICE OF LEGISLATIVE COUNSEL

Friday - 1 March 1963

25X1 1. [REDACTED] At the request of Congressman Armistead L. Selden, Jr., forwarded 60 copies of the sanitized statement of the DCI before the House Foreign Affairs Committee. Shortly after Selden's press conference, his office urgently requested another 59 copies which were delivered.

25X1 2. [REDACTED] Mr. Neubert at State telephoned in connection with the problem raised with the Department by DOD in connection with a letter from Senator Stennis. Apparently DOD has received an identical letter requesting information on communism in Latin America as had been received by State and CIA. Apparently Yarmolinsky had talked with General Carroll and in turn had discussed their response with McGeorge Bundy and were calling on the Department for assistance. I suggested to Neubert that since State and the Agency had responded in the manner agreed upon, i.e., State sending the Martin statement and the requested OAS report and the Agency sending the classified prepared statement of the DCI before House Foreign Affairs, that DOD could well be in a position of advising the Committee that they knew of these responses and that they would have nothing to add to this. Neubert thought this was a good idea and was going to suggest it to General Carroll's office. ✓

25X1 3. [REDACTED] Dave McGiffert, Assistant to the Secretary (Legislative Affairs), DOD, telephoned indicating Congressman Samuel S. Stratton (N. Y.) had asked for a detailed briefing on the alleged "picture gap." McGiffert indicated that in view of the general White House policy that he thought we should provide this briefing. I countered indicating it was not my understanding that the policy was that the Agency would provide detailed and classified briefings on this subject to every Congressman but rather where necessary, the Agency would make presentations to Committees on this subject. At this point McGiffert was called away and so this problem may not be fully resolved.
